# Office of Theology of Christian Traditions

---

The bachelor's field of Theology of Christian Traditions was opened by the PTF CU in 1999. At the same time, it concluded an agreement with the Institute of Ecumenical Studies in Prague, z.s., which provides study-related activities such as the September intensive course and weekend seminars for those interested in theology. The nature of the field implies the requirement to expand the circle of teachers to other theological faculties and other workplaces.

**Mgr. Filip Outrata, PhD.**
