Turnitin

The Turnitin app is used to provide feedback to students, train academic writing and prevent plagiarism. Turnitin allows you to compare the content of academic papers against a wide database of documents including, in addition to freely available websites, licensed sources and thesis repositories.

Thesis check in Turnitin system

If you need to check your final thesis in Turnitin system, you can do it directly via the Study Information System (SIS).

Before submitting the work, you can check up to 5 times.

Instruction in English here

Submitting via QUICK SUBMIT

Turnitin allows anyone with the INSTRUCTOR role to quickly check work without having to set up a class and task.

This function (QUICK SUBMIT) must be enabled in the user profile.
