
Updates and News

Events and News

You met the admission requirements at Charles University and — by enrolling in your studies — you have officially become a university student. **What's next?**

The online magazine Forum has been operating since autumn 2003. It focuses on current events at Charles University, responds to issues, and strives to comprehensively cover all areas related to the university's activities, such as education and science, higher education institutions, legislation, etc. In autumn 2019, it underwent a radical change in its graphic design and structure. The magazine has an English version for foreign readers.

Coronavirus situation update

Obviously we do not know at this stage what impact the COVID-19 epidemic will have on the situation in the spring. We hope it will be possible to have face-to-face teaching again in the summer semester, but students should be prepared for the possibility that at least some teaching will be online.

All students who apply will of course be kept informed about any changes in the situation that may occur.
